#### About Kids Squeaky Shoes

Children's Squeaky shoes are becoming very popular among children and parents!! They are not only functional but fun as well!!! You and your toddler (and everyone in hearing distance) will love these shoes that squeak! BEWARE---You and your little one will get lots of ATTENTION with squeaky shoes—put a pair on your little girl or boy and let him/her walk through Wal-Mart or a Shopping Mall. Everyone will be smiling (some even laughing) at the squeaking sounds, they will probably even ask you "Where did you get those squeaker shoes?"

### What exactly is a **Squeaky Shoe?**

Squeaky shoes for children, sometimes referred to as Squeaking Shoes, Squeaky Shoes, or Squeaker Shoes, are shoes that make a squeaking sound with every step your child takes. Squeaky Shoes are specially designed for babies, toddlers, and little kids. Squeaky shoes are great fun for little girls and little boys, and a great way for parents to track their child. The squeaky sounds can also be a great motivator for beginning walkers. There are many, many more beneficial qualities as well. The secret of these shoes is an insole air pocket. As the baby presses his/her heel against any surface, the air travels through a small

squeaker embedded in the rubber sole. Some squeaky shoes are made with a removable squeaker to provide for an easy way to stop the squeaking noise if needed.

## What is the purpose, other than fun, of buying Squeaky Shoes?

Squeaky Shoes provide a physical benefit by helping your baby or toddler learn to walk correctly and by promoting healthy walking. Squeaky shoes "SQUEAK" when a child walks correctly, from heel to toe. Your child will hear the squeaking sound and the squeaking noise will encourage your child to continue walking correctly so they can hear it again and again.

Squeaky Shoes provide infants and babies with stimulation to move and explore and love the squeaky sound when their feet touch the floor in their bouncy chairs. The squeaking sound also helps teach babies the concept of "cause and effect" from their foot movements

**Squeaky Shoes** also provide a safety benefit by allowing you to keep track of your little one. You can hear where your child is at all times when wearing squeaker shoes!!!!

Squeaky Shoes can also serve as motivation for blind and visually impaired babies and toddlers, who learn that moving their feet causes the squeaking sounds. As a result they are encouraged to move, explore, and take more first steps. Blind and visually impaired parents use squeaky shoes to track their baby's movements by sound.

# When purchasing shoes for your baby or toddler, experts agree it is important to remember that shoes should:

• Have flexible soles, and non-slip bottoms to provide traction

- Be made of leather or canvas or another type of breathable material
- Have a  $\frac{1}{2}$  wiggle room between your child's toes and the end of the shoe
- Be flexible across the ball of the foot and lightweight so they do not restrict important toe and foot mobility

Squeaky Shoe by Olivia not only meet expert recommendations for your children's shoes but they also offer the following benefits:

- High quality squeaky shoes for babies and toddlers
- Velcro closures provide an easy way to put on shoes and take shoes off
- Flexible Non-Skid Rubber Soles but not too flexible that it does not provide needed support
- <u>Stylish genuine leather children's shoes</u> (NOT PU or vinyl leather like other brands of squeaky shoes)
- Removable squeakers----When you need to stop the squeak, just remove the squeaker and place it in a safe place out of reach of your little tot. Just pop it back in when you are ready for squeaky again
- Available in toddler sizes 3, 4, 5, 6, 7, and 8
- Girls Mary Jane style squeaky shoes are perfect with your little girl's dress
